# Just It's Electric L.L.C.

June 21, 2016

My name is Erik Truxon and I am an electrical contractor in the Philadelphia region-licensed since 1991.

I have been in business full time since 1998 and love to encourage peers, young adults, and youth of today to become business owners including those seeking higher education.

I'd be more than glad to speak to anyone about owning your own business.

Anyway, attached you will find a scholarship opportunity for those in college willing to write a meaningful essay.

I encourage ALL to apply.

Please share this opportunity with ALL who may be interested.

Feel free to contact me or my office staff for any other needed information.

Sincerely,

Erik C. Truxon  
 Just It's Electric
